Floating Schools ensuring Community Resilience and Sustainable Development

MOHAMMED REZWAN, FRSA
Executive Director
Shidhulai Swanirvar Sangstha
One fifth of Bangladesh floods annually
Schools before and after floods

Schools destroyed by river erosion
Floating school comes to students
River-based environmental curriculum
Schooling during the COVID-19 pandemic
Follows the wooden boat-building heritage of the northwestern region.
Floating educational playground
Floating training centre providing **new skills**
Training during the COVID-19 pandemic
Evening educational shows on large sail-cloth
A Farm that floats on top of floodwaters
Strategies to engage local community

- Forming youth groups
- Social mobilization
- Responding to community feedback
- Integrating content with local tradition
School boat in Germany
Our hope floats ...
