

COMMONWEALTH *of* LEARNING

# COL in the Commonwealth

2018–2020 HIGHLIGHTS

---

## TUVALU

LEARNING FOR SUSTAINABLE DEVELOPMENT

## TARGETS 2021

Improved sustainable livelihoods  
**300,000 PEOPLE**

**470**  
**ORGANISATIONS**  
Improved organisational  
capacity to leverage ODL

**1.4 million**  
**PEOPLE**  
Increased and equitable  
access to, and use of, quality  
learning opportunities

## ACHIEVED BY 2020

**257,484** people

Target  
**EXCEEDED**

**654** organisations

**880,039** people

## Introduction

Since its creation some 30 years ago, the Commonwealth of Learning (COL) has become a true catalyst for positive change for a third of the world's population. Our vision of “learning for sustainable development” means that learning must lead to social inclusion, economic growth and environmental conservation. This aligns COL's work with Sustainable Development Goal 4 (SDG4), which aims to “ensure inclusive and equitable quality education and promote learning opportunities for all.”

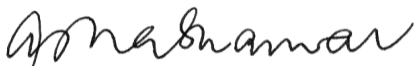

COL harnesses the potential of open, distance and technology-enabled learning to help Member States accelerate progress towards achieving development outcomes.

To achieve outcomes and impact, COL has led six paradigm shifts:

- If the child cannot go to school, the school comes to the child.
- Technology-enabled learning can break open the ivory towers of tertiary education.
- Open educational resources (OER) are the answer to closed and costly textbooks.
- The digital divide can be transformed into a digital dividend.
- Literacy is not always a precondition for learning.
- The social capital of the mother is the most important determinant in bringing girls to school.

What are COL's key success factors? COL aligns its work with global priorities and ensures that it stays relevant to Member States' needs and priorities. COL is relevant, responsive and results oriented. The 2018–2020 Country Highlights summarise COL's progress towards achieving SDG4.

Professor Asha S. Kanwar  
*President and Chief Executive Officer*  
*Commonwealth of Learning*

## Highlights

Working in two sectors, Education and Skills, with Gender as a crosscutting theme, COL uses pioneering models and approaches to achieve impact.

- COL has developed an innovative employability framework to strengthen and evaluate the impact of higher education institutions on graduates' employability, with a focus on industry and labour-market engagement.
- GIRLS Inspire has reached close to 81,000 girls and young women in remote and unreached communities, providing schooling and skilling them for livelihoods.
- The Lifelong Learning for Farmers (L3F) model is being upscaled in partnership with national banks, moving from the meso to the macro level.
- The Commonwealth Digital Education Leadership Training in Action (C-DELTA) programme is now being implemented across the Commonwealth.
- Ambitious projects to improve gender equality in two Commonwealth regions have been launched. These holistic models are based on community mobilisation and address areas such as capacity building in education, gender-based violence, health, empowerment, economic opportunities, and policy.
- Blockchain technology, built according to open standards, was used to issue certificates for massive open online courses (MOOCs) in different disciplines.
- COL has developed a comprehensive solution for data resilience in education for small states facing climate-related disasters.
- The ninth Pan-Commonwealth Forum (PCF9), held in Edinburgh, brought together close to 550 thought leaders, policy makers and practitioners to share best practices and harness innovation for change, with a view to providing employability skills to young people, offering a quality education to all regardless of circumstances, and identifying practical ways for technology to speed up our progress.

# TUVALU

---

COL works with partners in Tuvalu to expand access to quality education and lifelong learning for all. The Honourable Siasia 'Ofakivahafolau Sovaleni, Minister of Education and Training, Kingdom of Tonga, represents the Pacific Region on COL's Board of Governors, and Mr Neaki Letia, Director, Education Department, Ministry of Education, is COL's Focal Point for Tuvalu.

COL's current work in Tuvalu is primarily in the areas of technical and vocational skills development (TVSD) and tertiary education through the Virtual University for Small States of the Commonwealth (VUSSC). Tuvalu benefits from the activities of the Pacific Centre for Flexible and Open Learning for Development (PACFOLD). Learners from Tuvalu have also benefited from open online courses and other COL resources.

The following are the highlights from 2018 to 2020.

## Programmes

### VIRTUAL UNIVERSITY FOR SMALL STATES OF THE COMMONWEALTH (VUSSC)

Tuvalu is a member of VUSSC. Initiated by ministers of education of developing small states of the Commonwealth, VUSSC supports the collaborative development and sharing of OER to promote learning for sustainable development.

In the past few years, VUSSC has connected institutions through online technologies to promote eLearning and the collaborative sharing of educational resources using multi-institutional partnerships. The emphasis is now on supporting institutions to offer VUSSC courses and programmes, while promoting the use of the Transnational Qualifications Framework.

## **TECHNICAL AND VOCATIONAL SKILLS DEVELOPMENT (TVSD)**

TVSD supports partners in harnessing ODL to increase access to demand-driven, competency-based skills training. TVSD is increasingly focused on innovative models that use ODL for theory, with practical skills development organised in workplaces and communities.

The TVSD programme is now operational in four of the eight inhabited islands. COL has provided technical advice on how technology and OER can be integrated in education. Eight OER courses developed with COL are being used for Grade 8 school pushouts, as well as community members, in collaboration with the Kaupule (Island Council).

As well, the Ministry of Public Utilities and Infrastructure (MPUI) has established the Tuvalu Atoll Science and Technology Training Institute, focused on trades training for the staff of the Public Works Department. This institute has started training using the COL Pacific Basic trades training OER materials. During a visit in March 2018, COL's Education Specialist: TVSD provided technical advice to the senior management and staff of MPUI for the development of the new institute.

## **Events and Special Activities**

### **REGIONAL MEETING OF COL FOCAL POINTS**

The Pacific regional meeting of the COL Focal Points took place on 16 and 17 February 2018 in Nadi, Fiji to strengthen the effectiveness of COL's work in addressing key priorities for education and training in the region, and to share information about developments related to learning for sustainable development. Mr Neaki Letia, Director, Education Department, Ministry of Education, represented Tuvalu at the meeting.

### **MEETING WITH EDUCATION PERMANENT SECRETARY**

In March 2018, COL's Education Specialist: TVSD paid a courtesy visit to Dr Tofoua Panapa, Permanent Secretary, Ministry of Education. She provided an overview of COL's programmes and talked about the organisation's work in Tuvalu. Dr Panapa requested

further support in developing pathways for students who do not want to follow (or are locked out of) the academic stream.

## **WORKSHOP ON PROFESSIONALISING YOUTH WORK IN THE PACIFIC**

In collaboration with COL's regional centre, PACFOLD, and the Commonwealth Higher Education Consortium for Youth Work, COL convened a regional workshop in Suva, Fiji on *Professionalising Youth Work in the Pacific* in June 2019. Thirty-two participants from local and regional youth organisations gathered to discuss regional priorities and challenges related to youths in the Pacific. The main objective of the workshop was to draw upon participants' knowledge of youth work and familiarisation with the Youth Work courses developed by The University of the West Indies. Participants collaborated to devise competencies and practices to contextualise curricular content and repurpose these courses for consumption in the South Pacific. Two representatives from Tuvalu's Ministry of Education, Youth and Sports participated in the workshop.

## **PACIFIC REGIONAL WORKSHOP**

Two representatives from Tuvalu joined the regional workshop, which was convened by COL in partnership with PACFOLD and New Zealand's Ministry of Foreign Affairs and Trade (MFAT) at Shangri-La's Fijian Resort from 13 to 15 August 2019. The focus was identifying priority activities in skills development in the areas of resilience education, youths and gender. Convened by Dr Som Naidu, Director of PACFOLD, the workshop was also attended by Mr Jone Nemani, Permanent Secretary, Ministry of Youth and Sports, Government of Fiji, and Mr Tom Haig, Senior Advisor, MFAT, New Zealand.

## **PCF9**

Close to 550 policy makers, practitioners and thought leaders from across the Commonwealth and beyond gathered at the historic Murrayfield Stadium in Edinburgh, Scotland for the ninth Pan-Commonwealth Forum (PCF9), themed *Innovations for Quality Education and Lifelong Learning*. It was organised from 9 to 12 September 2019 in partnership with The Open University, UK.

The four days of insightful keynote addresses, engaging plenary panels, informative parallel sessions, and other programme highlights provided a unique opportunity to bridge traditional divides between borders and sectors. Discussions centred around four key

sub-themes: *Opening Up Education, Equity and Inclusion, Technology and Employability*, and delegates appreciated the focus on new forum features — artificial intelligence, youth and girls' education and learners with special abilities.

Under the auspices of PCF9, COL hosted a ministerial roundtable with participation from six education ministers. At PCF9, MFAT, COL and the University of the South Pacific organised a workshop on skills development in the Pacific.

### **MOOCs ON INTRODUCTION TO SUSTAINABLE DEVELOPMENT IN BUSINESS AND FUNCTIONAL NUMERACY**

The first offering of COL's MOOC on *Introduction to Sustainable Development in Business*, which was organised in collaboration with the Open University of Mauritius in May–June 2019, attracted one participant from Tuvalu.

Recognising the need to improve numeracy skills among youths in the South Pacific region, PACFOLD created a MOOC entitled *Functional Numeracy*. It ran for five weeks in February–March 2020 and attracted three participants from Tuvalu.

## PCF9 Edinburgh Statement

Forum partners from over 60 countries believe that it is possible to significantly accelerate progress towards the aim and targets of SDG4 by prioritising the following collective actions now:

### 1. **Accomplishment at scale**

Mobilise an emergency response to ensure that all children in the Commonwealth, including girls, learners with different abilities, and learners from vulnerable and marginalised communities, experience a quality education focused on accomplishment, knowledge exchange and the continued ability to learn.

### 2. **Skills for productive lives**

Urgently create learning opportunities for marginalised, excluded, vulnerable and out-of-school young people to build skills for leading a productive life, embracing technology to enhance employability, entrepreneurship and confidence, and bridging accessible formal, non-formal and informal education.

### 3. **Creating new digital dividends**

Develop new, innovative, flexible modes of education to foster creativity, imagination and peer knowledge exchange, increase reach and ensure no one is left behind, through the use of appropriate media and delivery, including blended approaches to digital learning.

#### 4. Teachers as skilled agents of change

Teachers and teacher educators are the main agents of change for quality education and can be supported to catalyse action in their schools, communities and colleges as respected professionals who model lifelong learning. To do this we propose:

Creating **alternative, flexible and technology enabled pathways into teaching** to resolve the shortage of skilled and motivated teachers;

Expanding low-cost, highly effective ways to **support school-based teacher professional development** to build change capacity and capability within regional and national educational systems.

#### 5. Positively disrupt higher education

Support innovation for quality higher education; **strengthen the technology-enabled learning ecosystem** throughout the Commonwealth, including the scope to develop professional skills, recognition, validation and verification of experiential and prior learning through micro-credentialing and blockchain technology; expand the reach of open education for dispersed audiences; and improve barrier-free access to tertiary education.

#### 6. Challenging assessment

Radically relook at assessment models: build a culture of assessment to support employability and micro-entrepreneurship.

### Our ambition is to achieve this through:

*Bold inclusive collaboration;*

*Bringing together the diverse groups of critical thinkers, innovators and practitioners who can collaboratively make change happen by delivering quality education and lifelong learning for all;*

*Making greater use of data, evidence and storytelling to galvanise political will for enabling policies and well-resourced implementation plans;*

*Sustaining the momentum;*

*Building an active network of learning, support and action starting now.*

Sustaining and building our momentum for change, we aim to bring our key commitments to the fore of the policy agenda through the Conference of Commonwealth

## New Publications and Resources

In 2018–2020, COL produced a number of publications and resources, including:

***Knowledge Series: Designing and Implementing Micro-Credentials:  
A Guide for Practitioners***

As online learning and MOOCs become mainstream, it is important to explore new forms of credentialing. This publication offers a step-by-step guide to plan, design and implement micro-credentials and badges in diverse contexts and provides greater flexibility in the journey of the new learner-earner through a skills and capability framework.

***A Blueprint and Toolkit for School-Based Teacher Development: SECONDARY***

This toolkit is for implementing school-based teacher development as a way to improve the performance of schools and raise the achievement of children. This valuable resource includes a detailed framework, which can be adapted to the context of a particular country, region, district or school, and offers practical daily activities for teachers.

***Guidelines on the Development of Open Educational Resources Policies***

This new publication provides specific tools to analyse current contexts and policy environments, understand issues related to copyright and licensing, and align policy in support of Sustainable Development Goal 4. The guidelines present a systematic process for designing and implementing OER policies and measuring their impact.

***A Guide to Integrating Employability in Higher Education Institutions: The Commonwealth of Learning’s Employability Model***

This publication provides clear guidelines on how to integrate employability pathways into instructional systems. From career counselling to career support, the guide demonstrates how institutions can prepare graduates for employment or entrepreneurship.

***Gender Scorecard 2.0: Instructions and Templates***

This is a tool to audit the capacity of institutions to mainstream gender. It helps with analysing existing policies and practices and developing clear steps for the effective promotion of gender equity.

All COL publications can be found on its open-access repository at **[oasis.col.org](https://oasis.col.org)**.
