Teaching with TESSA

Welcome!

TESSA brings together teachers and teacher educators from across Africa. A wide range of materials, in many languages, are available.

All have been prepared or chosen by expert teams. These are Open Educational Resources free for anyone to use, adapt and share with the TESSA community.

There are also international and national forums where ideas, opinions and advice can be posted. Choose the country you are interested in to explore the materials further. [Go >>](#)

Select your Country from the list below to access the TESSA materials
